**PAUL BURY HONORED WITH THE NEAL KOCUREK LIFETIME ACHIEVEMENT AWARD**

April 13, 2007 – Paul J. Bury, III, President of Bury+Partners, Inc., a leading civil engineering firm with offices in Fairfax, Warrenton and Williamsburg, Virginia, as well as Austin, Dallas, Houston, San Antonio and Temple, Texas, received the W. Neal Kocurek Commercial Real Estate Lifetime Achievement Award given by the Austin Business Journal during the Best Real Estate Awards reception on Thursday, April 12, 2007.

“The Austin Business Journal started the Best Real Estate Awards program in 2000 to honor developers, landlords, tenants, architects, engineers, contractors and brokers who together help our economy grow,” says Lyn Chasteen, publisher of the Austin Business Journal. “Past recipients of the Neal Kocurek Lifetime Achievement Award include Pike Powers of Fulbright & Jaworski, Sandy Gottesman of Live Oak-Gottesman Group, Gary Farmer of Heritage Title and longtime Austin developer and philanthropist Dick Rathgeber.”

“The commercial real estate industry plays a significant role in growing our community. It’s rare that a company relocates to Central Texas or expands its operations without real estate entering the equation. In the case of Bury+Partners, we have a company that has not only played a role in the expansion of other businesses, but has itself grown to become a major Austin employer and an integral part of our region’s business community. This year we are proud to honor Paul Bury for his commitment to the commercial real estate industry and our community as a whole.”

###

Bury is a dynamic, diversified engineering and consulting firm with offices in Austin, Dallas, Houston, San Antonio and Temple, Texas, and Fairfax, Warrenton and Williamsburg, Virginia. Founded in 1984, the company has more than 400 employees and has worked on many significant projects, including projects for Dell, National Instruments, Cabela’s, H-E-B and Home Depot. It has been named one of the state’s “Top Design Firms” by Texas Construction, has steadily advanced in the national rankings of Engineering News Record and is recognized by CE News as one of the Top 50 Places to Work nationally.
