**BURY+PARTNERS BOLSTERS PUBLIC WORKS PRACTICE
ADDS JOHN LINDNER, P.E. AS MANAGING PRINCIPAL**

AUSTIN, TEXAS – April 29, 2008 – Bury+Partners is pleased to welcome John Lindner, P.E. to our team as Managing Principal, Public Works. Mr. Lindner joins Bury+Partners after spending the last 23 years with Jacobs Carter Burgess most recently serving as Managing Principal of their Austin office. He also played a significant role in growing their municipal utility practice corporately.

Lindner's expertise in the area of municipal utility design includes water and wastewater pump stations, water storage facilities and distribution systems, and water and wastewater pipelines. He also has extensive experience in evaluation and design of a variety of trenchless construction methods for pipeline systems including micro tunneling, tunnel boring, and pipe rehabilitation methods. He has managed some of the largest pipeline, pump station and intake projects across the state of Texas.

"We are delighted to attract someone of John's caliber to our growing Public Works practice", says Paul Bury, President of Bury+Partners. "But the technical talent and acumen John brings to our team are surpassed by his reputation as an effective communicator and leader of people. He is a fantastic addition to our team."

"I have watched intently over the years as Bury+Partners has made in-roads into cities and municipalities that had traditionally been served by larger, more diverse firms. Bury is now one of those firms always on the short list. I am thrilled with what lies ahead. " says Lindner.

Lindner received his Bachelor's and Master's degrees from Texas A&M University. He is a member of American Society of Civil Engineers, American Water Works Association, National Society of Professional Engineers, Texas Society of Professional Engineers, Water Environment Association of Texas and the Texas A&M University Civil Engineering Department Advisory Council.

Bury is a dynamic, diversified engineering and consulting firm with offices in Austin, Dallas, Houston, San Antonio and Temple, Texas, and Fairfax and Williamsburg, Virginia. Founded in 1984, the company has more than 400 employees and has worked on many significant projects including the redevelopment of the Robert Mueller Airport, Dell Children's Medical Center, Cabelas, H-E-B and Home Depot. It has been named one of the state's "Top Design Firms" by Texas Construction, is ranked number 177 on the Engineering News Record list of Top 500 Design Firms, and has been recognized by CE News as one of the Top 50 Places to Work nationally.
